RE: 2019/1103/P

From your website it seems that the consultation period for this application is closed but I would nevertheless like to register my support. I have looked at the supporting documents and plans submitted by the applicants and, whilst the extension is modern, I think that it is very complimentary to the rest of the house providing sensitively thought-out and very useful extra space for a young family. The garden is of ample size and accommodates the extra building comfortably whilst respecting the proportions.

Many thanks and kind regards,
