

Application No:	Consultees Name:	Received:	Comment:	Response:
2019/2785/T	Janine	09/06/2019 19:34:42	PETITNOBJ E	Objection
2019/2785/T	Dmitri Alibegov	08/06/2019 23:45:26	OBJ	I object to the proposal. The trees are mature trees which provide privacy and enjoyment to all buildings behind 30 Glenilla Road including 18 Belsize Park Gardens, and removing them will expose our building, especially considering the plans to replace the current building at 30 Glenilla road by a bigger one.
2019/2785/T	Tanja Blum	09/06/2019 19:01:09	OBJ	Today I have been notified by a neighbour that the above two trees are in danger to be felled. Whatever the reason for this might be, it is not acceptable to fell trees as these are more important than ever for the environment we live in i.e pollution etc. and should have priority over anything else but safety.
2019/2785/T	Eldred Evans	10/06/2019 16:07:43	OBJ	<p>OBJECT</p> <p>Strongly object to the felling of these trees for personal and selfish reasons - "shading and low amenity value".</p> <p>These trees have a huge amenity value to the Area and the Environment.</p> <p>Eldred Evans Chair Belsize Conservation Area Advisory Committee.</p>
2019/2785/T	Andrea Coscelli	08/06/2019 15:44:11	OBJ	<p>Dear Sir/Madam. This application follows the approval a few weeks ago of a major redevelopment of the site in the Belsize Park conservation area. The major redevelopment had received many objections and one of the key safeguards for the residents at the back of the house on Belsize Park Gardens is the presence of the two large Sycamore trees. It is therefore extremely cynical to try sneakily to materially affect the terms of the original application afterwards with this (separate) application. The report going earlier this year to the Council members to recommend the approval of the application for the demolition of the house at paragraph 10.2 supports "the proposed L-shaped Garden Room [that] has been designed with the retention of the large Sycamore tree in mind." That report also refers to an expert assessment that the construction work will not affect the roots of the tree. It is therefore in my mind illegal to try to get this approval separately from the main application. If the council is too weak to oppose this approach, I will ensure that my legal rights are preserved through the appeal process. (I run a large Government agency and I deal daily with similar attempts to subvert public law.)</p> <p>Separately, even if the house was not in the process of facing a major demolition and development process, it would seem completely irrational for Camden Council, in the midst of a climate change emergency, to accept the removal of two large and healthy Sycamore trees that have been there for decades to simply favour the "landscaping of the garden" at the property. Best regards. Dr Andrea Coscelli</p>
