24 Belsize Lane NW3 5AB - reference 2019/2436/P - hard & soft landscaping

Re: planning permission 2017/6969/P

Flat 2, 26 Belsize lane also agrees with all the below points made by Michale Brod:

- **we have no objection at all to the removal of the front garden pair tree (T7)**. It is overhanging onto our property and causing significant damage to the paintwork on our parked car. It also creates a lot of dirt from falling leaves etc.

- we agree with the below comments made regarding the conservation and protection to tree T4.

Kind regards

Daniel Young

On 30th May, I emailed you with my comments on the above application for approval of hard & soft landscaping - Condition 7 of planning permission 2017/6969/P.

Since then I've reconsidered my comments, and whilst I remain concerned about retention of the rear garden coastal redwood (sequoia sempervirens) tree T4, I now have no objection to removal of the front garden pear tree T7.

Kind regards - Michael Brod
