**Subject:** DPCAAC tree applications

Dear tree officers and planners,

List 532  
2019/2731/T

I support the application to fell this tree; it is virtually dead and, according to the owner, rocks in the wind. I personally feel that if replaced it should be by a shrub rather than a tree as there is inadequate room and light to support a another tree.

Many thanks,  
Eileen Willmott
