**From: The Heath & Hampstead Society**

Dear Sirs

This large crudely designed garden building is large enough to be used as a single dwelling.

- 1) It has all the characteristics of a 'bungalow' suitable for the suburbs.
- 2) The design is simplistic and has none of the qualities that would add quality to the Conservation Area  
- in fact it detracts.
- 3) Another loss of water absorbing, ecological supporting garden area – so important to retain.

PLEASE REFUSE.
