2019/2375/P	Isobel	18/06/2019 16:54:49	COMMNT	This proposed school would directly adversely impact on an environmental level. The school specifically wants to target Belsize children so families will be travelling from outside of Hampstead-thus certainly increasing traffic pollution. At least two of the local Hampstead primary schools are currently not at full capacity-surely this raises the question of why an additional school is even required in the first place. If the reason is to provide a school for Belsize children-surely it would make sense to provide this locally in the Belsize area?
