The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy D1 of the London Borough of Camden Local Plan 2017.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans- Site Location Plan 30915 01, 30915 P02, 30915 P03, 30915 P04, 30915 P05; Design and Access Statement.

Reason: For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).
- 2 Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You are advised to consult the Council's Noise and Licensing Enforcement Team, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (Tel. No. 020 7974 4444 or search for 'environmental health' on the Camden website or seek prior approval under Section 61 of the Act if you anticipate any difficulty in carrying out construction other than within the hours stated above.
- 3 Reasons for granting permission.

The proposed replacement windows will match the existing materials, colour and glazing pattern and there shall be no alteration to the number or size of openings.

The new windows are acknowledged to have marginally thicker frames than the existing windows; however these are not considered to be too bulky and will not harm the overall appearance of the property. Furthermore the new windows are considered to be an improvement in terms of heat insulation and protection from external noise nuisance.

The replacement windows are considered acceptable in terms of design and materials and would not be harmful to the character and appearance of the host building or street scene.

The replacement windows will not have any adverse impact on the amenity of adjoining neighbouring properties.

No objections were received prior to the determination of this application. The

planning history of the site has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies D1 and A1 of London Borough of Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework 2019.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2019.
