Mr Habib Neshat
Planning Officer
London Borough of Camden
Environment Department
Camden Town Hall Argyll Street
London WC2H 8ND

Dear Mr Neshat

6 Templewood Avenue NW3 PW9802935

We write to oppose the above application on behalf of a considerable number of our members, particularly (but not exclusively) those who live near to the application site.

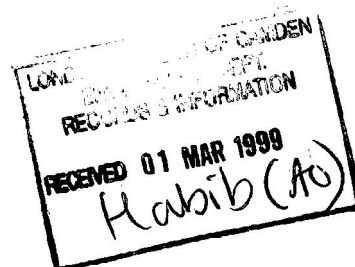

Our chief objections are set out in Mr Alejmi's letter of 21st February which we attach with his consent. He asks us to record also his personal objection.

The proposed structure fails to conserve or enhance the character of the conservation area and of this road in particular. Apart from infringing the building line, the addition of an extension towards the road would do harm to the integrity of the elevations fronting the road. You will doubtless also take due note of the technical point raised by Mr Alejmi in (6) of his letter. The raising of the parapet, or the provision of handrails, would not achieve an aesthetically satisfactory solution.

Yours sincerely,

Peter Rowe
Secretary

ORBJ
