22 May 19

Dear Tree Officer

The occupants of nos. 21, 20 and 19 Grove Terrace are requesting the crown of the tree out in the rear of no 20 be reduced a little more since you allowed me to do it a couple of years ago.

My recommendations are to lift it higher by removal of the lower branches on the outside of the main upright stems to thin the overall width of the tree but nevertheless leave it graceful, amenity but lesser shade. NO reduction in height is planned which could conflict with

with its attraction

The lady at no 21 would be the best
person to contact for viewing if required again
although it is clearly visible from the Lane to
the Grove Terrace Mews

Her phone no. is 020 482 6804
and I looking forward to your call.

I am requesting a lift and 30%
thinning of great please

Yours faithfully,
