2019/2689/P	Ricci de Freitas	21/06/2019 17:50:06	OBJ	Whilst welcoming the intention to remove the 3 sided kiosk, which has attracted rough sleepers, the claim that the proposed kiosk will take up less footway space is spurious, because the orientation of the unit means it will continue to obstruct the passage of pedestrians and sight lines to the same degree as the existing unit. The existing unit was illegally used to display large adverts designed to catch the eye of motorists and pedestrians approaching from the north. This is expressly forbidden within the Bloomsbury Conservation Area, with other telecoms providers complying with the regulation. All my recent conversations with other telecoms providers have led me to conclude that the provision of old tech telephones on streets is now redundant. There are also crime related concerns which have yet to be resolved, stemming from the misuse of other kiosks in East London boroughs. The existing kiosk should be removed and not replaced with the proposed unit.
2019/2689/P	The Imperial London Hotels Limited	21/06/2019 09:16:19	OBJ	There is no need for another public call box in this area. There are already 8 of them within 100 yards of this location which are all left in a dreadful state and are being used for inappropriate and offensive purposes.
