All existing gutters, steps and falls to be surveyed and emulated in proposed roof works- roof condition and retention subject to further investigation by SE

Existing parapet to be made good. Parapet height to be extended to provide safe access to gutters. New coping stone to match existing. Existing external render to be made good and painted white.

Carefully remove, retain and reuse existing slate tiles and reinstate- on new treated softwood batten

Existing external brick walls to be retained, cleaned, made good- replace where damaged and lined internally with insulation

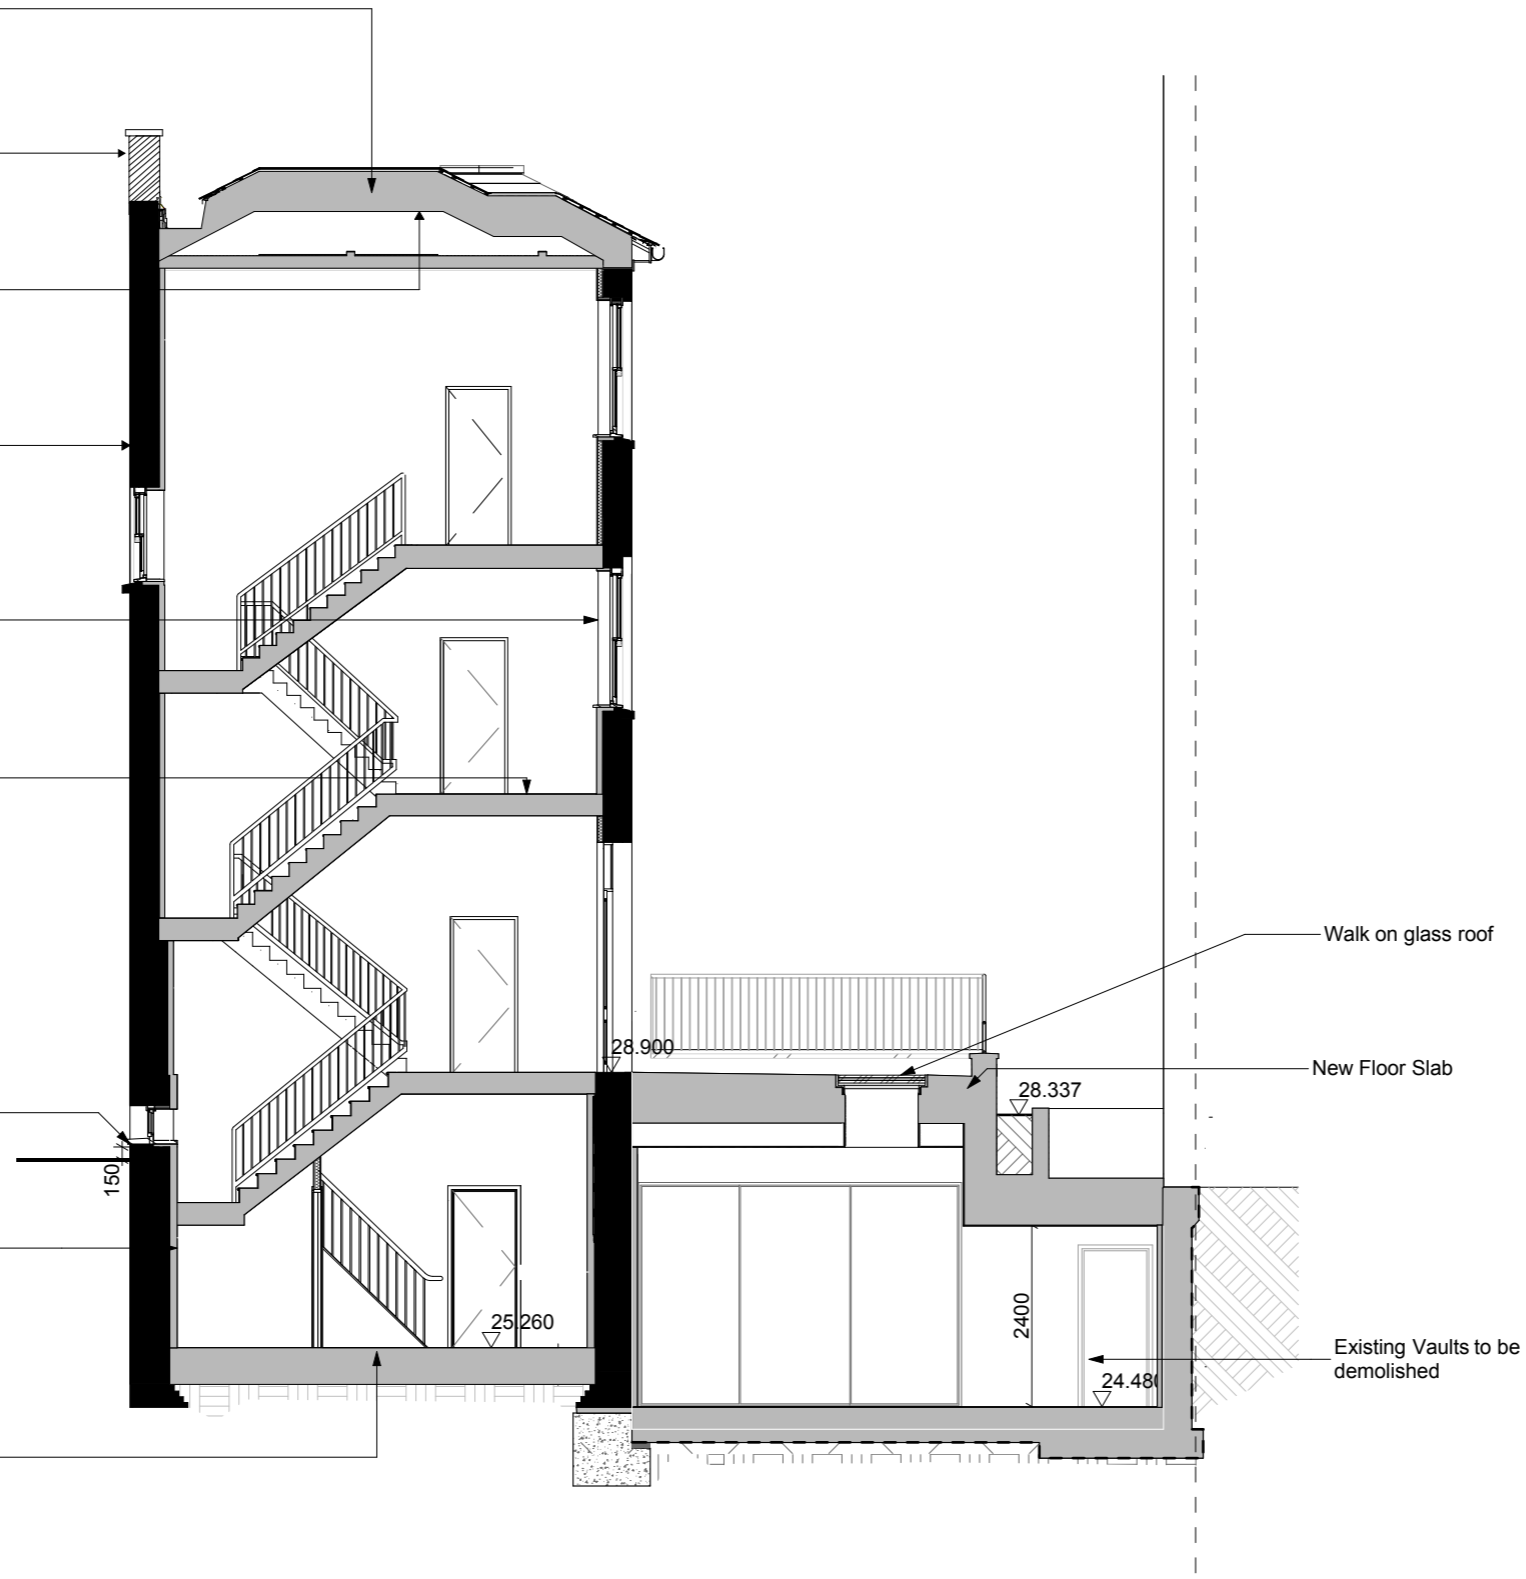

All windows to be replaced- new double glazed sash windows sized by manufacturer to fit existing opening

Existing timber floorboards to be carefully removed, retained and where possible re-used, Acoustic Insulation to be fixed between joists. Boards to be placed and covered with Acoustic Matting and proposed floor finish.

Reinstate existing opening- new window to opening to be sized by manufacturer

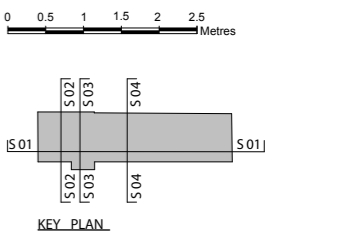

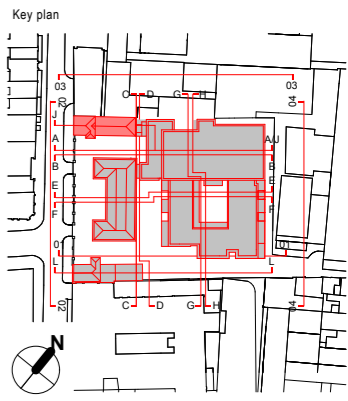

Basement walls to be waterproofed with conservation sensitive tanking as per M&E requirements

Existing basement floor build-up to be determined by means of site investigation. Floor level to match existing
