Subject: 25 Willoughby Road Tree Felling Request

Dear Nick,

I am working on a Garden design for Clients at 25 Willoughby Road, Hampstead. There is a mature prunus tree in the back garden which in poor health and we are asking if we might take it down and replace it with another tree after the re-design which would fit better with the scale of the house and garden. Only one branch is in leaf.

I attach some photos for you here. I have discovered there is no TPO on the tree at present.

Please could let me know what you think, and what the next steps are.

Kind regards

Sara Sall
