2019/2490/P	Susan Rogers	30/06/2019 05:11:24	COMMNT	<p>We live on Camden Mews although we are not immediate neighbours, I went to look at the existing house and then viewed the plans for the rebuild. The existing house does nothing for the mews (a wonderful amalgam of architectural styles), but seems to be currently a poorly built 70's house which does nothing to improve the environment and the Mews.</p> <p>I am always concerned by the loss of green spaces, but although this offers more space for family life, exterior space seems to be retained.</p> <p>So, that said, I would support a rebuild on the site and the plans submitted will substitute poorly built housing for one family, with housing for two families.</p>
