

Application No:	Consultees Name:	Received:	Comment:	Response:
2019/2263/P	Roula Harfouche	02/07/2019 10:06:20	OBJ	I [REDACTED] strongly object to this application. There seems to be a series of attempts to build houses (single family dwellings for the rich, not affordable housing) in the back gardens between Finchley Road, Frognal and Arkwright Road. All these applications should be refused once and for all. This is the only green space left in an already heavily built area, which is supposed to be a conservation area. Camden seems to have forgotten this and does not even consult with us anymore. We have to discover these applications on the website and then tell each other. The construction of a house at the back of 17 Frognal will entail the removal of trees and the increase of already insane traffic levels on Frognal. It will increase pollution and noise and reduce the privacy of the neighbouring houses and flats. This particular space will also increase the risk of flooding. There are many more appropriate spaces in Camden in which to build houses, and these are not back gardens. Just say no!
