

## Holly Lodge Estate Electric Vehicle Charging Points in Makepeace Avenue Arboricultural Impact Statement

Date: 1<sup>st</sup> July 2019

I have assessed the proposed installation and location of the 3 charging points in Makepeace Avenue as shown on the plan within the Helen Bowers D&A statement.

There shall be no impact on any nearby trees from the route of the supply to the charging points and between the charging points. The only trees nearby are young recently planted trees (within last 3 years) along the verge bank on the southern side of Makepeace Avenue.

The 3 trees concerned are 1 Winter Flowering Cherry and 2 Himalayan Birch all of which are less than 75mm in diameter at 1.5 metres above ground level.

In terms of protecting the newly planted trees from direct damage during construction I propose they are fenced off with 1.2 metre high chestnut paling prior to starting on site.

Yours sincerely
