Subject: Ref: 2019/3243/T: Intended Work to Trees in a Conservation Area

To whom it may concern:

Ref: 2019/3243/T

May I ask what the reason is for cutting down these trees? Are they diseased or rotten? If not, I strongly object to these apple trees being cut down.

Please can you keep me informed of the outcome? I have copied in my PA, Michele Clement-Delbos, so that she may make a note of this application's progress and any decision regarding their future?

Many thanks and kind regards

Helen Burningham
