Dear Sirs, please link this with my previous e-mail.
Having accessed the plans on a proper sized screen I see there is a 500cm gap proposed around the building so my second comment was nonsense. MUCH worse the material is not plastic (I heard it was a kit and made assumptions) and my wife tells me (too late) that next door have planted replacement trees; I am mortified at my own nasty comments and, in this circumstance, wish to WITHDRAW ALL MY OBJECTIONS TO THE PROPOSED BUILDING..
yours faithfully
