Dear Sir/Madam

### **DECISION**

Town and Country Planning Act 1990 (as amended)

#### **Full Planning Permission Granted**

Address:  
**47 Goodge Street**  
**London**  
**W1T 1TD**

Proposal:  
Installation of 2x Air-Con units at first floor in rear yard

Drawing Nos: 00; 01E; 02E; 03E; 01P; 02P; 03P and Plant Noise Impact Assessment Report by Hann Tucker Associates dated 8 May 2019.

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

00; 01E; 02E; 03E; 01P; 02P; 03P and Plant Noise Impact Assessment Report by Hann Tucker Associates dated 8 May 2019.

Reason:

For the avoidance of doubt and in the interest of proper planning.

- 3 Noise levels at a point 1 metre external to sensitive facades shall be at least 10dB(A) less than the existing background measurement (LA90), expressed in dB(A) when all plant/equipment (or any part of it) is in operation unless the plant/equipment hereby permitted will have a noise that has a distinguishable, discrete continuous note (whine, hiss, screech, hum) and/or if there are distinct impulses (bangs, clicks, clatters, thumps), then the noise levels from that piece of plant/equipment at any sensitive façade shall be at least 15dB(A) below the LA90, expressed in dB(A).

Reason: To safeguard the amenities of the adjoining premises and the area generally in accordance with the requirements of policies G1, CC1, D1, and A1 of the London Borough of Camden Local Plan 2017.

- 4 Prior to use, machinery, plant or equipment and ducting at the development shall be mounted with proprietary anti-vibration isolators and fan motors shall be vibration isolated from the casing and adequately silenced and maintained as such.

Reason: To safeguard the amenities of the adjoining premises and the area generally in accordance with the requirements of policies A1 and A4 of the London Borough of Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting permission:

The proposal includes the installation of two air con units at first floor in rear yard alongside existing plant equipment and would serve the office at first floor level. The proposed units each measure 0.63m high x 0.45m wide x 0.95m deep. Due to its small scale and siting within the terrace, which is well screened by the 2m high existing boundary fence, it would not be visually prominent from within the surrounding area. It is considered that the proposal would preserve the character and appearance of the host property, streetscene and the wider area.

A noise survey and an additional acoustic note following advice from the Council's Environmental Health Officer has been submitted in support of the application. The Council's Environmental Health Officer reviewed the information and considered it to be acceptable, subject to noise compliance and anti-vibration measures being secured by planning conditions. The development would not result in a material impact on the amenity of neighbouring properties in terms of noise disturbance.

The development due to its scale, siting and design is not considered to cause harm to the amenity of the neighbouring properties in terms of loss of light,

privacy or overlooking.

No comments were received during the consultation period. The planning history of the site has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies G1, CC1, A1, A4 and D1 of the London Borough of Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework 2019.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).
- 3 Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You are advised to consult the Council's Noise and Licensing Enforcement Team, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (Tel. No. 020 7974 4444 or search for 'environmental health' on the Camden website or seek prior approval under Section 61 of the Act if you anticipate any difficulty in carrying out construction other than within the hours stated above.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2019.
