Subject: tree at 51 Belsize Park Gardens

[REDACTED]

Thanks for your helpful elucidation of the language regarding a tree felling regarding which we can nevertheless see no convincing evidence for a necessity. It is neither dangerous nor obstructive, nor inconvenient; on the contrary, it enhances the vicinity at a time when, as we are all acutely aware, tree-felling in urban areas increases the level of pollutants, and this is a very intensive school area.

Kind regards

Miranda Seymour
