TORUS 1 MDF SKIRTING BOARD

Click Here To
Order A Free Sample

Our Torus 1 skirting board is an absolute classic moulding design. It is extensively used throughout the construction industry and is a particularly popular profile for new-build developments.

Although widely available, each supplier tends to offer subtle variations of the Torus design so if you are looking to match an existing Torus skirting it would be a good idea to grab a sample or check the dimensions of your current Torus against the design we manufacture and supply.

Please note the profile detail remains the same size regardless of the height you choose- as the height increases, so does the size of the 'flat' section beneath the detail.
