2019/2781/P	Marshall Stark	14/07/2019 17:38:05	APP	<div></div> <p>We objected to the previous plans as significantly degrading our light and views.</p> <p>We vigorously object to this new proposal to extend the third floor further out back as ruining our access to light and views from our second floor and essentially boxing us in to a cave. I have not seen any updated studies of light into our flat as a result of this revised proposal. At the very least they should re-run those studies.</p> <p>The developer of these flats is very selfishly trying to maximise their profits without any regard to the folks who have to live next to this monstrosity. Further you should very seriously investigate whether the foundations can hold this additional structure, given the clay nature of the soil in this area, and the ongoing settling of these houses, further construction could be disastrous to this row of buildings.</p> <p>We would like to lodge a formal complaint and appeal. Please let us know when the committee date is.</p>
