Subject: 2019/2879/P Eastman dental hospital- objection
Importance: High

[REDACTED]

I wish to object to the proposals at the Eastman; in summary my objections are:

Excessive height and bulk: this is excessive and unacceptably harmful to the conservation area, setting of listed buildings, setting of St Andrews Gardens and adjacent designated heritage assets- it is contrary to both Camden and national planning policy.

Harm to the setting of listed building: the looming and unattractive bulk is unacceptably harmful to the

Design: Very poor brutalist design and completely alien to the host building and the wider conservation area

Out look and loss of light: Unacceptable harm to my out look and loss of light,

I am appalled by the proposals, they are unacceptable in design and amenity terms, they harm the setting of the listed building, conservation area and adjacent heritage assets.

Eleanor Miller,
