

16 July 2019

Planning applications 2019/1710/L and 2019/1646/P to alter 53-55 Monmouth street from offices to residential.

Dear Sir or Madam,

I, too, am writing to object to the application.

The award winning Ching Court development is a successful mixed use development which has managed to retain a local community atmosphere more successfully than any other development. The proposed development would risk that achievement and add absolutely nothing to the neighborhood and community.
