Subject: planning application 2019/3010/P

FAO N-A Constantinescu

I wish to comment on this application but there seems no way to do this on the camden.gov site.

I am concerned about the poor design of the accommodation, and in addition especially worried about the increased traffic and parking that could result from the development of 9 flats.

Maresfield Gardens is already unbelievably congested, especially during rush hour and school dropoff/pickup times. This increase in traffic will run counter to measures already proposed to reduce congestion and pollution in this area (Healthy School Street) and I believe residents need assurances that no parking permits will be allowed for this new accommodation.

Kind regards

Carol Cooper
