Informative(s):

- 1 Squire's Mount is a grade-II*-listed house of 1714 making a positive contribution to the Hampstead Conservation Area. It has a substantial back garden divided into upper and lower gardens by an ornamental brick and terracotta wall and perron.

The wall and perron have fallen into decay and are in danger of collapse. The applicant wishes partially to dismantle and rebuild them, like for like. Where bricks are beyond reuse, matching replacements will be sourced, to be agreed by condition. A satisfactory method statement and schedule of works have been supplied, including detailed recording prior to dismantling and specifying no power tools to be used.

The proposed works will not harm the special interest of the grade-II*-listed building.

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. Historic England has supplied a letter of flexible authority, ratified by the secretary of state. The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
