I would like to lodge a complaint regards to a building site 14 Maresfield Gardens. The building site will turn our peaceful neighbourhood into a chaos. A constant flow of traffic, pollution: noise, building dust, creates the environment, that directly and negatively affects my personal and neighbours wellbeing.

Also, we already experience a severe lack of parking space. If the proposal goes through, we will be left with nothing: no parking, overcrowded street, dirty air, noise, traffic- all of that a worrying symptoms to abuse and neglect of our flourishing neighbourhood. Please scrap the planning, before builders destroy our street.

Faithfully yours

Rinat Salimov
