**Subject:** Tree at 51 Belsize Park Gardens (objection)

Dear Rav,

I am writing to you with regards to the proposed plan of cutting down a tree at the front of the building at 51, Belize Park Gardens. The plan, as I understand it, is to accommodate the recycling bins.

I want to raise our objection to this proposal, as there is no apparent relationship between the site for the bins and a beautiful and very healthy and much-needed tree on a rather polluted London street.

Can a different arrangement be found on site?

Thank you very much  
Anastasia and Ronen Palan
