2019/2539/P	Hampstead CAAC	21/07/2019 12:17:44	OBJ	HCAAC Objects to the proposal as designed. Boundary treatments should be as close as possible to the original red brick walling and piers. Bin stores opening direct to the public footway risk abuse, in this case also a malfunctioning door left open to reveal the bins and any untidiness inside, The rendered panel will become soiled, vulnerable to graffiti and generally not suited to the CA character. Sliding doors shown because hinged doors are not permitted to open across the footway. If the alternative with wheelie bins is proposed, those need a dedicated space preferably back slightly from the footway but no roofs nor doors.
