2019/1906P	Simon Gunn	19/07/2019 11:17:27	OBJ	<div style="background-color: black; height: 30px; width: 100%;"></div> <p>1. Seepage of sewage from the sump pit, the likelihood of which will increase with deterioration over time. It doesn't make sense for the pit to be located adjacent to a residential property rather than on the Woodsome Road side where there are no immediate neighbours.</p> <p>2. Destabilising the foundations.</p> <div style="background-color: black; height: 30px; width: 100%;"></div>
2019/1906P	Michael Brown RIHA	19/07/2019 18:21:15	OBJ	<p>I have read the previous objection to the enlarged sump to be excavated close to the party wall with 1. Hillside Rd. The owners of this house have already suffered settlement to their house. It is of little consequence that these defects may be patched up on the short term whilst long term damage from differential settlement will be outside of any responsibility of the pub owner.</p> <p>The absolute minimum required by the planners is that this sump is re-sited at least 4-5 m from this party wall (determined roughly by the angle of repose) or as sited in other objections.</p> <p>Please don't add further anxiety to these neighbours who have suffered enough.</p>
