Hi Nora

In response to your query regarding the ramp railings colours we have allowed for Green RAL 6005 to match the new fencing, gates and floodlight columns. The green also represents the school colours and the Head Teacher has also indicated this to be his preferred choice of colour for the ramp to match existing school boundary fencing etc. I would be happy to get him to confirm this should this be necessary. I trust this meets with your approval.

With regards to the gate pad lock we will look to support the Crime Officer's request notwithstanding budget constraints. Otherwise it will be a recognised safety kite marked padlock and not a 'cheap' one. i.e F10! I would also advise that we have made provisions for the installation of 8 CCTV cameras to cover all vulnerable points in and around the AGP pitch. Again I trust this meets with your approval.

I am happy to address any further queries and/or provide clarification accordingly.

Kind Regards  
Bhim
