2019/0979/P	Denise Barry	26/07/2019 14:52:23	OBJNOT	<p>I WISH TO BE NOTIFIED OF THE COMMITTEE DATE</p> <p>WE OBJECT TO THE EXTRACTOR UNIT INSTALLED AT THE PREMISES</p> <p>For the last 6 years we have been occupiers of premises directly behind the site. The current occupiers of 52 Tottenham Court Road installed an extractor pipe to the rear of their site last November 2018 without any planning permission. The pipe (approx 30 cm in diameter) points directly at our building and we have been regularly bombarded with 'fried cooking' smells emanating from the extractor pipe. After visiting the site the occupiers 'angled' the pipe away from our premises however this has done little to stop the smells continually permeating our premises. Indeed they also gave us advice to just 'close our windows' which was very un-helpful. We have been keeping a log which shows a fairly continuous emission of smells between 1000 to 1900. We have had to re-schedule numerous meetings and at times allow our staff to work from home when the smells have become too oppressive. This is seriously affecting our ability to provide a decent working environment for our staff. We are not alone - there are many business's & residential properties that are adversely affected by this extractor unit as this is already a high density area, making living and working in this area extremely difficult and and un-comfortable.</p>
