2019/1906/P	john morton	26/07/2019 21:14:08	COMMNT	This seems to me like a stealth development. The original application involved changing the functions of the building to add bed-and-breakfast facilities to a very successful gastro pub. It was claimed these bed-and-breakfast facilities were being created in response to local demand but nobody I have met in the neighbourhood has reported any knowledge of such demand. The latest application aims at including flats, a further change in function of the building. A change in function of the bread and breakfast facilities into further flats is to be feared, as is the future of the pub itself.
