Re planning application 2018/3672/P.

I wish to register my opposition to this application as a whole. I a regular user of this part of Hampsted Heath, using the unmade part of Millfield Lane. Putting any more houses with exits onto Millfield Lane will degrade to environment there and interfere with a route that is currently enjoyed by thousand of pedestrians and cyclists. I would therefore most strongly object to the plots where access to Millfield Lane is proposed. The present open aspect of this part of Fitzroy Park would be spoilt by extra dwellings, whatever provision is made for wildlife habitats. The proposal to limit car parking space to 1 per dwelling is likely to lead to additional cars owned by occupants being parked in Fitzroy Park itself, detractibg from amenity and potentially creating obstructions.
