Informative(s):

- 1 Reason for granting consent:

The proposal to replace the existing timber framed conservatory with a newly constructed timber framed conservatory on the same footprint is considered acceptable. The existing part-lead roof will be retained, and; following development there will be very little discernible difference to the current arrangement. The conservation officer advised that works carried out to the garden steps and decking would not require listed building consent as it did not affect any historic fabric. The proposed works will not harm the fabric and special interest of the grade II listed building or the character and appearance of the Dartmouth Park Conservation Area.

The proposal was advertised in the press and by site notice. No objections were received prior to the determination of this application. The site's planning history was taken into account when coming to this decision. Special regard has been attached to the desirability of preserving the character and appearance of the conservation area and special interest of the listed building, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policy D2 of the London Borough of Camden Local Plan 2017. The proposed development also accords with policy D3 of the Kentish Town Neighbourhood Plan 2016, the London Plan 2016 and the National Planning Policy Framework 2019.
