

**2 Directional & map sign**

**Action** New installation

**Quantity existing** 0 **Proposed** 1

**Size**  
Overall 2000mm (h) x 450mm (w) x 100mm (d)

**Installation**  
Positioned as shown, into the block paving and perpendicular to the canal.

**Materials & colour**  
Lower half of the sign to be cast concrete monolith construction. Upper half of the sign to be stove enamelled construction. Map and destination content to be part of the stove enamel print and in various colours such as grey, black, white and yellow. Destination titles and arrows to be push-through opal acrylic letters with yellow vinyl applied to the face.

**Illumination**  
The sign is to be illuminated from trough lights recessed into the ground either-side of the lectern to provide illumination up the face of the sign. In addition to this there will be internal illumination on the top section of the sign, this will result in only the destination titles and arrows internally illuminating. Illumination will not exceed 600 candelas per meter square.

Artwork Scale 1:10 @ A3
