Reason: For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reason for granting permission

The proposed roof lights are located to the rear roof slope and positioned toward the ridge of the roof. The rooflights are of conservation style and would be modestly sized and appropriate in design, number and location to the building. They will not be visible from the public realm. The proposed window on the side elevation will not harm the appearance of the elevation and would match the existing windows on this elevation. The alteration to the dormer window by creating 2 separate windows with new aluminium frames is considered acceptable in design terms and would not harm the appearance of the building.

The proposal is not considered to cause any adverse impacts on the amenity of adjoining residential occupiers.

No objections have been received prior to making this decision. The site's planning history was taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposed development is in general accordance with policies A1, D1 and D2 of the London Borough of Camden Local Plan 2017 and policies DH1 and DH2 of the Hampstead Neighbourhood Plan. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework 2019.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings.
