2019/3310/P	A Bailiwick	06/08/2019 10:12:32	OBJ	<p>The glasshouse is a light, airy addition to Vine House. It is in excellent condition and due to its listed status was built like-for-like several years ago. The proposed demolition and rebuild of this into a brick structure is hugely different from the existing and would detract from the open green view to Hampstead Square and from houses in Hampstead Square back to Vine House.</p> <p>It does not make sense having a single story brick protrusion from the side of the house such as that being proposed. The extension on the north side as previously agreed in a previous planning application makes much more architectural sense.</p> <p>I object to the glasshouse being demolished please rethink the proposal.</p>
