Subject: Notification of Intended Works to Tree in a Conservation Area

Dear Sirs

re: Your Ref : 2019/3792/T – for the attention of the Tree

Team

I write about your communication – reference above - concerning the felling of the Malus (Apple) Tree in the rear garden of 15 Willoughby Road, London NW3 [REDACTED]

The felling of the Apple Tree at no. 15 is of the utmost importance to me because it has caused subsidence to my property – this has been proven by the Innovation Company appointed by my insurance company. I am anxious to start repairs to my property but cannot do so until all the preliminary tests have been completed and the tree in the rear garden of no. 15 Willoughby Road has been carried out.

Thank you very much for your cooperation and support.

Yours sincerely,

Jenny Macdonald-Hay (Mrs)
