The copyright of this collection of material provided in response to this request for information is vested in the London Bat Group.

This information is provided subject to the condition that it shall not in any way of trade or otherwise, be lent, sold or resold, hired out, or otherwise circulated in any form without the prior written consent of the London Bat Group.

The information provided here is believed to be correct.

However, no responsibility can be accepted by the London Bat Group or any of its partners or officers for any consequences of errors or omissions, nor responsibility for loss occasioned to any person acting or refraining from action as a result of this information and no claims for compensation for damage or negligence will be accepted.

The records held by the London Bat Group are not the result of systematic survey, so the absence of data for any particular site or area cannot be taken to indicate that bats are not present or use it as a place of shelter.

The London Bat Group advises that before any work starts a competent surveyor should check any site, building or tree on which any work is planned, to reduce the risk of harming bats
