Dear Sir/Madam

DECISION

Town and Country Planning Act 1990 (as amended)

Full Planning Permission Granted

Address:

Flat Ground Floor Right
46 Minster Road
London
NW2 3RD

Proposal: Erection of rear extension to ground floor flat (Use C3)

Drawing Nos: 453: D1; D2A; D3A; D4; D5; Design and Access Statement by Neale + Norden dated May 2019.

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy D1 of the London Borough of Camden Local Plan 2017 and policy 2 of the Fortune Green and West Hampstead Neighbourhood Plan 2015.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans:

453: D1; D2A; D3A; D4; D5; Design and Access Statement by Neale + Norden dated May 2019.

Reason: For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission:

The proposed single storey rear extension is considered subordinate to the ground floor flat and overall building in terms of its form, scale and proportions. It would extend outwards from the rear wall by 3.4m (alongside the existing rear projection) with a width of 2.6m. It's maximum height would be 3.9m from ground level lowering to 2.8m as the extension features a pitched roof. The proposed extension would be constructed from brickwork with matching white render and matching rosemary tiled roofing and as such the detailed design is considered appropriate and sympathetic to the host building.

Due to its location at the rear and the modest scale and design of the proposal, the proposed extension is considered to not detract from the character and appearance of the host building or the wider vicinity.

Due to the location and size of the proposed extension, it is not considered to adversely impact the amenity of adjoining residential occupiers in terms of outlook, daylight or privacy. A window serving a living room to an ancillary residential unit would be removed as part of the proposal; however, this room would remain dual aspect and as such, would still receive adequate daylight/sunlight and outlook.

No comments or objections were received prior to making this decision. The application site's planning history and relevant appeal decisions have been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies A1 and D1 of the London Borough of Camden Local Plan 2017 and policy 2 of the Fortune Green and West Hampstead Neighbourhood Plan 2015. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework 2019.
