OBJECTION

From: THE HEATH & HAMPSTEAD SOCIETY

We object to the front and side dormers as they unbalance the symmetry of the block of 2 semi-detached houses .

The partner `semi` on the west side has a roof room with only one dormer at the back , therefore the front and side dormers will unbalance the building which is classical style and which therefore requires symmetry .

The introduction of front and side dormers has spoilt so many well designed houses in the Local Conservation areas.

Please refuse this application to spoil the symmetry of these well preserved classical buildings.
