Objection regarding the alleged installation of Sonair grills to external façades

Dear Sir / Madame,

- 1) [REDACTED] and I am the leaseholder of [REDACTED] Cubitt Court.
- 2) It has come to my attention that a [REDACTED] - Costain Skanska Joint venture, may have allegedly submitted an application relating to my premise.
- 3) If a planning application has been issued relating to my premise then I am concerned as to why I have not been notified.
- 4) I am aware that the company Granada Glazing Ltd. is the appointed company by HS2 for addressing the secondary glazing for Cubitt Court, however the company has failed to discuss final plans relating to my premise and subsequently I have suffered both noise and dust pollution over many months, and I have received no compensation nor remuneration for the inconvenience.
- 5) I have written to HS2 regarding the disturbances and disruption, and I am waiting for satisfactory response in order to resolve the matter.
- 6) There is a worrying lack of communication and I have not seen the plans for the apparent proposed work on my premise, and therefore I have reservations regarding the apparent planning application due to other parties failing to consult with myself, as I am the leaseholder of the premise.
- 7) I look forward to receiving confirmation of this letter in writing, and I would be grateful for any further information relating to this application, to be brought to my attention.

Kind regards,

[REDACTED]
