## **SCHEDULE OF PROPOSALS**

This schedule has been prepared in support of an application for minor non-material amendments at 11 Primrose Hill Road, London NW3 3DG.

The amendment seeks to alter the height of the side extension, in order to minimise digging as much as possible, since the presence of a National Rail tunnel just below the garden/extension perimeter.

The change is aesthetically in keeping with the neighbouring context.

Furthermore, with this application, we would like to rectify the height and location of the existing boundary fence that was incorrectly drawn on the section drawing of the planning permission 2016/3956/P.
