

FOR THE ATTENTION OF DEVELOPMENT - REGENERATION AND PLANNING - CAMDEN TOWN HALL.

We are a block of flats directly above the planned Tesco store - we are situated on Shelton Street and Endell Street. Our building is flimsy and we do not have double glazing

We already have to put up with excessive noise and pollution day and night from heavy traffic, restaurants, bars, clubs and all the footfall this entails. Our bedrooms are in Endell Street overlooking the proposed entrance and loading area of Tesco store. We have to endure constant refuse collections and the added rattling of glass bottles from bars and restaurants whose owners most probably live in the leafy suburbs and are happily unaware of our sufferings! Now Tesco plans to plague us even more and if this is a Tesco Local opening hours will be uncontrolled 7 days a week, prices will be higher and local stores that have been here many years will suffer, added to which we will have even more delivery lorries, more pollution and noise in our narrow streets.

Mary Kaye
