Dear Sir/Madam

### **18 Regents Park Road, London NW1**

Our clients have asked us to write to you confirming that we are the Structural Engineers who are carrying out the design of the proposed basement extension below the front garden at the above mentioned property. We can confirm that we also prepared the BIA for this project.

All the structural elements have been designed to the relevant Euro Code standards. We can also confirm that we will visit site to inspect the works in progress at the following periods during the construction phase

- The installation of temporary works
- The first excavated pins
- The reinforcement for the stairs/terrace slab.

I am a Chartered Member of the Institution of Structural Engineers and have experience in the design of basement structures similar to this project on similar sites to 18 Regents Park Road.

We trust this meets with your approval but please do not hesitate to contact us if you have any queries

Yours faithfully  
For SYMMETRY LIMITED
