Reason: For the avoidance of doubt and in the interest of proper planning

Informative(s):

1 Reason for granting approval-

The amendment relates to the installation of a louvred vent at ground floor level of the Saffron Hill elevation in place of a previously approved blind window. The louvre would provide natural ventilation to a basement plant room which houses a gas meter room, and combustion air for gas fired water heaters. As such, the proposed amendment would not result in noise disturbance, or amenity impacts. The detail of the louvre is consistent with the style used elsewhere on the building and will be finished in anodized bronze. It is considered that the amendment will not materially alter the appearance of the Saffron Hill façade, and as such, is considered a non-material amendment.

Due to the nature of the proposals they are not considered to introduce any new design or amenity concerns.

Given the nature of the application as a non-material amendment to a previously approved scheme, no neighbour consultations were undertaken. The site's planning history was taken into account when coming to this decision. The full impact of the proposed development has already been assessed by virtue of the previous permission granted on 24/01/18 under reference 2017/4586/P.

2 You are advised that this decision relates only to insert the changes highlighted on the plans and set out in the description and shall only be read in the context of the substantive permission granted on 24/01/18 under reference number 2017/4586/P and is bound by all the conditions and obligations attached to that permission.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2019.

Yours faithfully

Daniel Pope
