2019/4057/P	agnes	06/09/2019 14:29:39	PETITNOBJ E	<p>Kilburn High High does not need further pavement cluttering devices for the following reasons:</p> <ol style="list-style-type: none"> <li>1 will provide back rest and shelter for aggressive begging, very common on the high Road</li> <li>2. will provide hiding space, breaking pedestrian sightlines and thus reducing pedestrian safety in a very busy area.( there were several stabbings at this location)</li> <li>3. reduce usable pavement width in an area of high pedestrian footfall.The application plan fails to show the tree in front of 238 Kilburn High Road. Pedestrians would have to sverve to avois tree, then phone box and tree again.</li> <li>4. distract motor traffic with implications of more traffic accidents in an accident hotspot</li> <li>5. numerous other phone boxes in vicinity, nearest one 12 yards away in front of UCKG building</li> <li>6. In proximity to the Grange, a grade II listed building- Would detract from the building heritage.</li> </ol> <p>This installation is not wanted and I object to it strongly as it is an advertising panel parading as a phone box. Please reject the application. If the application cannot be rejected outright then the placement of the advertising panel should be parallel to the highway and not perpendicular to the hgihway to maximise pavement width and reduce traffic distraction.</p>
