Application No:	Consultees Name:	Received:	Comment:	Response:
2019/4480/P	David Hay	11/09/2019 10:50:03	INT	<p>I [REDACTED] have no issues with this application. However, I far preferred the previous design for the frontage which would have transformed this building in a really positive way and was rejected by Camden on grounds I don't understand since the current building has no architectural merit and detracts from the streetscape in my opinion (which should have significant weight since I am immediately across the road and have an almost constant view of it from my house). I would welcome clarification from Camden on the basis on which the previous application was rejected (I have read the rejection notice and the decision appears highly pejorative to me with limited understanding or justification.) This lack of imagination, thinking and reasoning is a real shame. I feel that a faulty council decision has harmed the streetscape and that I will continue to be reminded of this wasted potential every day as I look out of my window.</p>
