2019/3891/P	Mr G David	12/09/2019 14:57:13	SUPPRT	<p>I do not agree with some of the other comments I have read that this new building will be too tall and overbearing. This area and London as a whole is an urban area developing all the time. Clearly as seen all over London there is and ever improving skyline with taller buildings which confirms that the only availability for the necessary residential increase in London, is upwards. There is an ever increasing demand in London for more residential and more hotels. This building typifies the demand which we need to embrace for the future. If we do not, London and this particular area will not develop strongly and will lose out to other areas where such development is happening</p>
2019/3891/P	Harrison	12/09/2019 11:09:54	SUPPRT	<p>I would like to reiterate what my flat mate has said. I also add that I would like Camden to ensure the developer sticks to a time line to commence and complete the building works promptly. Overall, the pictures of the new building look excellent and I hope the end result will be the same</p>
2019/3891/P	Nate Harris	12/09/2019 11:05:06	SUPPRT	<p>This new building, once built, will be great for me living next door. I do hope that the build will be expedited as quickly as possible to minimise any inconvenience. it will be good for us locals if a time schedule can be documented</p>
