Informative(s):

- 1 Reasons for granting listed building consent (delegated):

1 Birkenhead Street is one of a terrace of 7 houses listed Grade II. The terrace of 3 storeys with basements, was built c1827-32 by W Forrester Bray, in yellow stock brick.

The properties in Birkenhead Street (formerly Liverpool Street) together with other early 19th century development within this area of Kings Cross are of heritage significance as they form part of the earliest urban development within the area. The area however never gained social prominence due to the small size of the properties and the presence of three busy railway termini (Euston Station, St Pancras and Kings Cross Station) on the north side of Euston Road.

No 1 is located at the northern end of the terrace with a mews entrance adjacent, the mews is now in separate ownership.

The terrace has been subjected to a certain amount of alteration. No 1 especially has been subjected to an unfortunately amount of unsympathetic work, the interior much altered in association as its previous use as a small hotel.

In recent years planning and listed building consent have been granted to convert the building to office use (2018/5938/P, 2019/0224/L). This application seeks to revise certain details of the scheme.

The site's planning history has been taken into account when making this decision

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as

amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.
